April 22, 2020

Dear Innovations Students and Guardians,

This past Friday, Governor Pritzker announced that Illinois schools will remain closed through the end of the school year. While this is sad news, we support the governor’s decision to protect the health and wellness of our community members.

While our school will remain closed, the school year will continue through remote learning and students will still receive credit for coursework. It is vital that all students remain in contact with their teachers via their school email account, Google Classroom, and any other online platforms their classes are utilizing. Please visit our website or Facebook page for more information:

https://www.facebook.com/circlerefound

We understand how important events like prom and graduation are to our graduating seniors. We will update the school community on our plans for those events as soon as we are able to.

We are working on our technology distribution plan. If you haven’t already submitted the technology request form or called or texted in your request, please do so. Students received the form in their email. If you are unable to complete it, please call 773-809-5538 and leave a voicemail (or text) with contact information. Teachers will also be emailing students to set up virtual parent teacher conferences, so please reach out to us if you are unable to access that email.

These are unprecedented times filled with many challenges, but together we will make it through. We are here for you, so please let us know how we can best support you.

Sincerely,

Melissa Cotirla
Principal
Innovations High School
